## TEA!

THE CUP THAT CHEERS BUT NOT INEBRIATES

Few merchants and practically no consumers can tell the cup quality of teas by their appearance, therefore it behooves both merchants and consumers alike to be cautious and only buy teas from men that make the upbuilding of their tea trade their object. We buy our teas from an exclusive tea house and feel satisfied from our trade on this beverage that it is the best that we can procure. Royal Blend Teas numbers 1 and 2 at \$1 and 85c per pound respectively will make more tea and better tea than any we have ever been able to buy : : : : :

## TEXAS LEGISLATURE.

Last Week of the Session Began With Earnest Work.

## MANY BILLS PASSED.

House Refuses to Accept Amendments to Galveston Charter Bill—Eight Hour Bill for State Employees Engrossed by House.

Austin, April 2.—The house yesterday declined to concur in the senate amendments to the Galveston commission bill and ordered that a conference committee be appointed.

The legislature yesterday entered upon practically the last week of the session, and during the day members of the legislature, especially the members of the house, were anxious to seize practically the last chance they would have to get their measures up.

Senate bill granting a pension to Mrs. Mary Patchelder, the widow of a soldier of the Texas war of independence was passed to engrossment. The lady is a sister of Senator George G. Vest of Missouri and the amount of the pension proposed to be granted is \$150 a year.

Mr. Callan secured the passage of his 8-hour labor bill to engrossment in the house.

Mr. Poole secured engrossment of the bill by Mr. Terrell of McLennan, prohibiting the sale of cocaine and morphine without a physician's prescription.

The senate bill to permit the purchase of the Texas, Sabine Valley and North-western Railway company, the Texas and Sabine Valley Railway company, and the Timpson and Sabine Pass Railway, or either or any two of them by any railroad corporation to be chartered to build a road from Boren to the Gulf of Mexico or from Timpson to the Gulf and from Longview to the Indian Territory line, was engrossed.

Mr. Perkins' bill to continue the iron industry at the Rusk penitentiary, was taken up, and finally passed after much discussion.

The bill by Messrs. Fears and Pierson making the shipment of liquor into a local option precinct a sale was engrossed.

The general land bill was finally passed.

Several unimportant measures were finally disposed of.

The senate passed the house bill authorizing investment of permanent school fund in the bonds of independent school districts as well as bonds heretofore authorized. The senate struck out provision heretofore existing authorizing investment of the fund in bonds of incorporated cities. The bill was sent back to the house for concurrence.

Neff's house bill making very slight changes in the law relating to the granting of teachers' certificates was passed to a third reading.

House bill providing that minerals and oil discovered on school or university land after its sale shall be the property of the state was finally passed.

Several bills of local nature were finally passed.

### Text Book Law Killed.

Austin, April 2.—The senate has killed by indefinite postponement the bill extending for another five years the state text book law.

### Convention Takes No Action.

Havana, April 2.—A secret session of the Cuban constitutional convention was held Monday and attended by 25 delegates. Among the absentees were Senor Giberg, Senor Aquilas and Gen. Sanquilly, strong supporters of the Platt amendment.

The first matter considered was a resolution from the Planters' association petitioning the convention to accept the amendment with a proviso that the United States government should make a reduction of 50 per cent in the duty on Cuban products or at least make a preference in their favor over similar products. The resolutions was tabled without discussion.

The majority report of the committee on relations, signed by Senors Gomez, Silvela and Villuendas, was read but after a discussion which showed that a majority of the delegates were opposed to it, a resolution to lay it on the table was carried. A similar disposition was made on reports from Senors DeQuesada, Tamayo, Nunez and Giberga. A motion by Senor Montagnedo to appoint a commission to go to Washington was defeated by a vote of 13 to 12.

It was finally decided to hold a public session of the convention today when an attempt will probably be made to reconsider the Montagnedo motion.

### Patrick's Hearing.

New York, April 2.—There were three witnesses Monday at the hearing of Albert T. Patrick, the lawyer, charged with causing the death of William M. Rice last September. The first was Mrs. Francis, with whom Patrick boarded, and two undertakers. Nothing sensational occurred.

## PROSPEROUS SECTION.

Barnes Elated With the Outlook in Mexico and Yucatan.

New York, April 2.—H. H. Barnes, a member of a local firm of brokers, and who has just returned from an extended tour through Mexico and Yucatan, reports considerable industrial activity in these parts of the world. In the course of an interview he said:

"Americans are at last awakening to the opportunities which Mexico and the surrounding states for the investment of capital and the undertaking of important contracts. While I was in the City of Mexico four American firms had representatives there with a view to securing a contract from the municipal authorities for the asphaltting of the capital. The contract will be worth at least \$2,000,000."

As regards the state of Yucatan, Mr. Barnes said a franchise has been secured from the city of Merida by the Merida Well company, in which American capital is largely interested, with a view to the conveying of water in pipe and the erection of hydrants in the streets of Yucatan's capital. Pure water has been struck by the sinking of artesian wells to a depth of some 600 feet. Four wells are already sunk and about a score or more will be bored, all of which will mean the purchase of considerable American machinery. It is anticipated that fully 100 miles of pipe will be required. Six to eight inch steelthreaded piping will be used. These and other pipe contracts which will aggregate close onto \$5,000,000 is to be given out very shortly.

The prosperity of the country is astounding, the existing condition of affairs being brought about mainly by the increase in the price of hemp. The inhabitants have their hands full, therefore, and are looking to foreign contractors to undertake the drainage work. It is proposed to build a four to six foot iron pipe line between Merida and Progreso, a distance of 28 miles. The pipe contract alone would involve an expenditure of some \$2,000,000.

"Although," concluded Mr. Barnes, "the chances of the American export trade in that region are exceedingly promising."

## ANOTHER GREAT SCHEME.

Morgan and His Syndicate Want Authority to Build Panama Canal.

Chicago, April 2.—A special to The Chronicle from Washington says:

In regard to J. P. Morgan's scheme that the United States government shall abandon its plan of building a canal across the isthmus of Panama, and permit private capital to take up and finish the work already accomplished on the Panama canal, it is learned on high authority that when Mr. Morgan visited Washington about 10 days ago he first broached the subject. His proposition was that the administration abandon the present plan of constructing a canal at governmental expense across Nicaragua and Costa Rica and recommend to congress that a corporation composed of American capitalists be authorized to carry out the work practically abandoned by the Panama company.

It is understood that the syndicate headed by Mr. Morgan and Mr. Hill is composed of capitalists who now control the entire transcontinental railway system of the United States.

President McKinley is said to have listened to the new canal proposition with a favorable ear. He has not made any promise nor indicated what course the administration will pursue in dealing with the matter.

Mr. Morgan and Mr. Hill may decide to visit Panama in Mr. Hill's yacht after they get through in Washington, and Senator Hanna may accompany them.

## ALLEN WILL RESIGN.

Not Expected He Will Return to Puerto Rico as Governor.

Washington, April 2.—Charles H. Allen, governor of Puerto Rico, who left San Juan Monday for Washington, is expected to tender his resignation soon after reaching here.

Mr. Allen will retire voluntarily. When he accepted the position, which he did reluctantly, and only at the earnest solicitation of the president, he promised to remain there but a year. The time is now up and he does not care to remain longer, although the president will doubtless endeavor to persuade him to go back.

Governor Allen can have his old place as assistant secretary of the navy back if he wishes it and it was understood when his successor was appointed that it would be opened to him upon relinquishing control of affairs on the island. No names have been suggested as Mr. Allen's successor as yet.

## Mob Returned Him to Jail.

Marshall, Tex., April 2.—A mob took a negro from jail here last night to lynch him. Within an hour the mob brought him back to jail unharmed, save that his nervous system was slightly impaired. Level heads in the mob prevailed. The negro's identity could not be established and he was returned to jail.

### Plumer and French Successful.

London, April 2.—Under date of Pretoria, April 1, Kitchener reports that Plumer has occupied Nylstroom and French has captured three guns on the lower Pongola. Thirty-one prisoners have been captured in Orange River Colony. No casualties.

### Sharkey and Russell Matched.

Denver, April 2.—Tom Sharkey has been matched to fight Fred Russell at the Colorado Athletic club on April 26.

### Row at St. Louis Election.

St. Louis, April 2.—United States District Attorney Rosier was shot in the arm at the polling place near Vandeventer and Manchester avenues. A row was in progress and Rosier received a shot intended for another. The wound is not serious.

### No Constitutional Convention.

Nashville, April 2.—The bill to authorize the calling of a constitutional convention has been killed by the house.

WEDNESDAY, APRIL 3, 1901.

Caldwell will have a new broom factory ready for work by July 1.

The Secretary of Agriculture recently received a letter asking for tobacco seed, specifying Battle Axe or Star Plug as the varieties wanted.

The Eagle has received copies of the Southern Messenger published at San Antonio, and of Svoboda published at La Grange by Judge Haidusek, each containing elaborate accounts of the laying of the cornerstone of the Ursuline Convent in Bryan March 19. The Messenger publishes the able address of Judge J. W. Doremus in full.

The individual who says there is a better state than Texas, has fun poked at him from every side. Even tee potato winks his eye, every cabbage shakes his head, the beet gets red in the face, every onion feels stronger, the oat fields are shocked and the rye strikes its beard, and every foot of black land in the Lone Star state kicks. —Lancaster Herald.

Reese DeGraffeurid shows his gameness and patriotism at the proper time. He says the legislature may re-district him out of congress, but they can't redistrict him out of the state, and that it is of more importance to form them so as to send sixteen democratic congressmen to Washington than to form them so that he or any other man may hold his job and run the risk of letting four or five republicans break into congress from Texas.

### BAD ON BUCKET SHOPS.

War Revenue Reduction Act Will Put Them Out of Business.

New York, April 2.—The provision in the war revenue reduction act relating to bucket shops is now in effect and the result of its operation is awaited with considerable interest, especially in downtown brokerage circles. The application of the law places bucket shop men in the peculiar position of having to pay a special tax and to acknowledge in writing that they are bucket shop men, while the business of conducting a bucket shop business in this state is prohibited by a state law.

Internal Revenue collector Treat said that so far no bucket shop men had applied for a license in accordance with the provision of the new law. They have 10 days, however, in which to pay the special tax and take out such a license. No official rulings have yet come from Washington regarding the scope of the bucket shop amendment.

There is some talk that the bucket shops may remove their headquarters to Canada, where there is no anti-bucket shop law and no internal revenue tax. Agents in this city would still act for them, but all transactions would be by telegraph. The opinion is expressed that the present state and federal laws would not reach such operations.

### NO YELLOW FEVER.

Havana Free of the Disease on April 1, First Time in History.

Havana, April 2.—For the first time in the history of Havana the month of April begins without a single case of yellow fever in the city. Major W. C. Gorgas, chief sanitary officer, is confident that with the sanitary measures now being enforced there will be but few cases during the coming season. The marine hospital service is also taking precautions against the bringing of infection into Havana from Mexican and other ports.

Dr. Glennon, chief surgeon, has issued orders for a quarantine against these ports beginning April 15. It is thought that many cases in Havana last year were brought in from Vera Cruz, which is only two days sail from Havana. Hereafter, passengers from Vera Cruz will be obliged to remain in quarantine for three days. The emigrant station is used only for temporary quarters for immigrants who have no employment on arriving here. Under the old arrangement they remained in Havana, and not being immune, they contracted yellow fever and spread the disease.

### HE TAKES THE OATH.

Aguinaldo Swears Allegiance to United States Before MacArthur

Washington, April 2.—Secretary Root has made public the following cablegram received at the war department from General MacArthur at Manila:

"Since his arrival at Manila Aguinaldo has been at Malacanán investigating the conditions in the archipelago. He has relied almost entirely upon the instructive advice of Chief Justice Arellano. As a result he has subscribed and sworn to declaration on page 11 of my annual report."

The oath referred to is as follows: "I hereby renounce all allegiance to any and all so-called revolutionary governments in the Philippine islands and recognize and accept the supreme authority of the United States of America therein. I do solemnly swear, I will bear true faith and allegiance to that government; that I will at all times conduct myself as a faithful, obedient and law abiding citizen on the

said islands, and will not either directly or indirectly hold correspondence with or give intelligence to the enemy of the United States, nor will I abet, harbor or protect such enemy; that I impose upon myself these voluntary obligations without any mental reservations or purpose of evasion, so help me God."

### More Filipinos Surrender.

Manila, April 2.—Colonel Gonzales, the insurgent governor of Manila, with 10 officers and 45 men, has surrendered to Colonel Beacom at Malabon.

### Spaniards on Aguinaldo's Capture.

Madrid, April 2.—The capture of Aguinaldo has caused much interest here. The press is divided on the subject. Some of the newspapers are delighted with his capture and describe him as a black traitor to Spain. Others consider him a traitor to his own race and declare he was bought with American dollars.

### A BOY ABDUCTED.

A New York Youth Been Missing Since Middle of Last Week.

New York, April 2.—After vainly running out every clue the police have become convinced that Willie McCormick, Jr., the 10-year-old boy who disappeared last Wednesday, is the victim of a kidnapping plot.

Captain Titus, a detective, and Capt. James Gannon, a policeman, have put every available man on the case. On Wednesday night two of the boy's sisters were going to church with him when he found it necessary to return to the house for his overcoat. He was delayed for a few minutes and the sisters walked toward the church. When he failed to rejoin them soon they walked rapidly to the church both believing until they reached home that he did not go with them. As a matter of fact he had put on his overcoat and started after them.

Willie is the son of a retired florist living on Ogden Avenue. The child has 11 sisters. His mother is prostrated from grief and anxiety and the father is almost equally so.

### Unseated for False Statements.

London, April 2.—The court which has been hearing the election charges against Frederic Rutherford Harris, the former secretary of the British Chartered South African company, and recently a member of parliament for Monmouth, who was accused of corruption during the parliamentary campaign, has unseated Harris on the ground that he published false statements regarding his opponent. Harris, who was a Conservative, was the confidential agent of Cecil Rhodes. He defeated A. Spicer, a Liberal.

### Y. M. C. A. Building at Guthrie.

Guthrie, O. T., April 2.—The movement to erect a Young Men's Christian association building in this city, is progressing very favorably, and it is pretty certain that a \$10,000 building will be erected. District Attorney Speed and Honorable J. W. McNeal have each given \$1000. Many liberal subscriptions are promised. While several hundred memberships in the association have been taken.

Oaxaca, Mex., April 2.—Another regiment of reinforcements for Gen. Bravos' forces, that are operating against the Maya Indians in Yucatan, has arrived at Progresso from interior points in Mexico. These reinforcements are being hurried to the front rapidly and will be in time to join the assault that will be made in a few days on Chan Santa Cruz, the stronghold of the rebels.

### Premier of France Not Serious.

Paris, April 2.—Surgeons have operated on the abscess under the tongue of M. Wladec-Rousseau, the premier. He hopes to return to work in a day or so.

"Success is the realization of the estimate which you place upon yourself"

### DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and  
colds is all right, but you want  
something that will relieve and cure  
the more severe and dangerous re-  
sults of throat and lung troubles.  
What shall you do? Go to a warmer  
more regular climate? Yes, if possi-  
ble; if not possible for you, then in  
either case take the only remedy  
that has been introduced in all  
civilized countries with success in  
severe throat and lung troubles.  
"Boschee's German Syrup." It not  
only heals and stimulates the  
tissues to destroy the germ disease,  
but allays inflammation, causes easy  
expectoration, gives a good night's  
rest, and cures the patient. Try one  
bottle. Recommended many years  
by all druggists in the world. Get  
Green's Prize Almanac. For sale by  
Wilson-Jenkins Drug Co.

### NOTICE.

Obituaries, accounts of society  
events and other matters that inter-  
est only a limited number of people  
cannot be given gratuitously in  
the columns of the Eagle. This  
includes obituaries written by  
friends of deceased, resolutions pub-  
lished by lodges, accounts of private  
entertainments, suppers, etc. This is  
not intended to entirely bar notices  
of such matters. The publishers are  
pleased to have these matters called  
to their attention for appropriate  
notice in the paper either by per-  
sonal request, note or telephone, but  
long articles of the class mentioned  
cannot be printed without charge as  
for advertisements or other matters  
of interest to only a few persons.

### Notice of Stockholders' Meeting.

## RUSSIA'S FREE HAND.

England and Germany Will Refuse to Oppose Manchurian Deal.

## JAPAN STANDS ALONE

It Is Intimated That Concessions in Korea Will Buy the Japanese Off—Russia Expects Ratification of the Treaty.

London, April 2.—The Chinese muddle has again fallen into the background since nearly all well informed men agree that neither Great Britain nor Germany will interfere with Russian designs in Manchuria and that Japan can be placated by concessions in Korea.

The indemnity is now under discussion between Germany and England, with the probability that a compromise agreed upon between them will be received by the powers after protracted delay.

## CHINA MUST ACCEPT.

Russians Believe No Power Will Forebly Back the Chinese.

St. Petersburg, April 2.—Unofficial observers scarcely understand how doubt can possibly be entertained abroad that China will ultimately refuse the Russian conditions after it is apparent no power is willing to forcibly support China. For, as it is urged, while Russia undoubtedly prefers to carry through her plans as made, her diplomatic position would suffer as little as her military position from China's refusal to accept what Russia regards as moderate conditions of withdrawal.

## Emperor Refused to Sign.

London, April 2.—Dr. Morrison wires to The Times from Peking as follows:

"The Yang Tse viceroys have carried the day. Li Hung Chang, who wired Tuesday urging Emperor Kwang Su to reconsider his decision, received an answer that the throne's decision in the presence of the unanimous advice of the chief provincial officers was irrevocable and that the Manchurian convention could not be signed.

"In spite of her threats, Russia seems disinclined to slam the door. Negotiations between Li Hung Chang and M. DeGiers were certainly proceeding Sunday when M. DeGiers agreed to several formal amendments of the text. Russia's cynical and bold diplomacy appears for once to have overreached itself."

## Second Limit Expires Tomorrow.

St. Petersburg, April 2.—The new term within which the signature of the Manchurian agreement is demanded expires tomorrow. The confidence that the treaty will be accepted substantially in its present form is apparently unshaken here though no positive prophecies are made.

## Indian Sentry Shot.

Tien Tsin, April 2.—An Indian sentry was shot in the thigh Saturday night. He states he twice returned the fire. He believes the aggressors were foreign soldiers.

The German mounted infantry have started in pursuit of the robbers in Bi Tai district.

## China Accepts One Proposal.

Berlin, April 2.—The Peking correspondent of the Cologne Gazette says China has agreed to the proposal of the powers to make the island of Kwang Su, near Amoy, an international settlement, modeled after Shanghai.

## A Fort Blocks Navigation.

Pekin, April 2.—Regarding the destruction of the forts, the generals are practically agreed that those at Taku, Shan-Hai-Cuan and Tien Tsin, must at least be rendered useless while the north fort at the entrance of the river Taku must be destroyed entirely on account of the fact that ever since it was built it has caused lower water on the bar, having diverted the course of the stream.

The merchants have frequently complained to the consuls, but no government has liked to ask China to destroy a fort at the entrance of an important river. This, however, can now be done as a matter of military necessity and will give foreign merchants intense satisfaction as in consequence of its being done the river will in short time again be navigable as far as Tien Tsin.

## Mutiny Leaders Shot.

Cape Coast Castle, Gold Coast Colony, April 2.—The leaders of the men belonging to the West African regiment who recently mutinied because they were not returned to Sierra Leone at the time they understood they were to be sent home, have been court-martialed and publicly shot. The rest of the mutineers have been shipped to the Island of Sherbro, 40 miles from Sierra Leone.

## Several Indictments Passed.

Frankfort, Ky., April 2.—In the criminal court here the indictments against ex-Governor W. S. Taylor, ex-Secretary of State Charles Finley, Berry Howard and John L. Powers for complicity in the Goebel assassination, were called, but continued, as none of the defendants were in custody. The cases of Callum and Green Golden, who are out on bond, were also passed.

## Booz Hazing Investigation.

Washington, April 2.—The findings of the military court of inquiry which investigated the treatment alleged to have been accorded to the late Oscar L. Booz, a former cadet at West Point military academy, is that his death was not due to hazing.

## MUNICIPAL ELECTIONS.

In Ohio the Election Is About a Stand Off—Result in Michigan.

Cincinnati, April 2.—Fair weather prevailed in Ohio Monday for the municipal and township elections. The unusually large vote for April indicates that more interest than usual prevailed in these localities. This was due to the fact that a full state ticket is to be elected next November, together with members for the legislature who will choose a successor to Senator Foraker. In some few localities executive nominations were made by a popular vote. None show any opposition to Foraker among the Republicans and there was not enough action of this kind to indicate any preference for John R. McLean, Tom L. Johnson or any one else, as the Democratic favorite for the senatorship.

There was no election in Cincinnati. At Columbus, where the Republicans have had the city government, the Democrats elect their mayor by a close margin, while at Cleveland ex-Congressman Tom L. Johnson, Democrat, was elected mayor by about 3000 plurality.

"Golden Rule" (non-partisan) Samuel Jones, was re-elected for the third time at Toledo.

At Springfield the Republicans elected a mayor for the first time in eight years. Milligan, the successful candidate, is a brother-in-law of Senator Fairbanks of Indiana.

Taken as a whole the election in the state was about a standoff.

## In Michigan.

Detroit, April 2.—Robert M. Montgomery of Grand Rapids, Republican, has been reelected justice of the supreme court by about 40,000 majority and Frank W. Fletcher of Alpena and Henry W. Carey of Manistee, Republican candidates for regents of the state university, have also been elected by a majority almost as large. The vote cast was light, excepting in those cities where there was a fight on some local issue.

Two constitutional amendments were voted on, both of which were defeated. One fixed the compensation of state legislators at \$1000 per term and mileage, instead of \$3 per day when the legislature is in session as at present, and the other provided for an increase in the salary of the circuit judge of Bay county.

The Democrats made a marked gain in Jackson, where their entire city ticket was elected. The city went Republican last year.

In Owosso, C. D. Emory, Prohibitionist, was elected mayor, overcoming a Republican majority last year of 650. He was the only member of that ticket, however, who was successful.

In Detroit, John B. Whelan, Republican, was elected police justice, the only municipal office voted for, by 4285 majority.

## STORM IN OKLAHOMA.

Washita and Custer Counties Swept and Several Lives Lost.

Guthrie, O.T., April 2.—News reached here of great havoc wrought by a storm in Washita and Custer counties Sunday morning at 2 o'clock. The storm came suddenly and was a veritable cyclone along a narrow track of country for many miles. The home of William Baker, six miles west of Crdell, was blown to pieces and Mrs. Baker seriously hurt.

In the same neighborhood the home of Joseph Nail and all the improvements were completely wiped out. The family took refuge in a cave and escaped.

Two miles away Clem Peters' house was wrecked and his hired man injured. John Rogers, living near Stout, was killed. Mrs. Rogers and two children were hurt. The house was blown down and completely ruined.

The German Baptist church, in the Stout neighborhood, was blown down and completely ruined.

The home of Adolphus Harris was wrecked and a child killed.

Over the line in Custer county half a dozen farm houses were wrecked and several people injured, but the facts are unobtainable.

## CROP CONDITIONS.

Weather Conditions Favorable in Some Sections and Bad in Others.

Washington, April 2.—The weather bureau has issued the following summary of crop conditions:

From the central Mississippi valley eastward to the middle Atlantic coast the weather conditions of March were generally favorable for farm work, but in the states of the Missouri valley and upper lake region they were not so favorable.

Complaints of drought are received from central and western Texas, while heavy rains in the south Atlantic and east Gulf states during the latter part of the month interfered with farm work and caused injury by washing prepared land.

Preparations for planting corn are in progress as far north as Kansas, Missouri, Kentucky and Virginia, some having been planted in the southern portions of the first two named states. Farther south a larger part of the crop has been planted.

Some cotton has been planted in Alabama and southern Texas and preparations for planting in other portions of the cotton belt are well advanced.

## Mayor of Havana Resigns.

Havana, April 2.—Senor Alejandro Rodriguez, who was elected mayor of Havana June 20, 1900, has resigned the office. Senor Zayas and Dr. Estevez, secretary of justice are the rival candidates.
